

# AN INVITATION TO THE UARCTIC THEMATIC NETWORK

*Bioregional Planning for Resilient Rural Communities*

The **UARctic Thematic Network** is an interdisciplinary platform by which institutions and local communities can leverage bioregional planning strategies and tool kits to support resilient rural communities in the North.

Our network of interdisciplinary researchers and practitioners is committed to: understanding the role that bioregional and systems strategies can play in supporting rural Northern communities activating those strategies in an intentional, place-based way to promote resilience in the face of climate change and other disruptive events.

Network Chair: UNE North at the University of New England

Inaugural Partners: SustainaMetrix, University of Highlands and Islands (Scotland), Agricultural University of Iceland, University of Tyumen (Russia)

***UARctic Members and Non-Members are welcome to join the Network!***

## First Network Working Meeting!

Join us at the **Arctic Circle Assembly at Rima A in Harpa** or via **Zoom** on **Friday October 15, at 2 - 3 pm (Iceland Time) 10 - 11 am (Eastern Time)**

Agenda will include project sharing and discussion of student and Indigenous community engagement.

Submit Bioregioning Resources and Events for listing on the network website!
